Crime Severity Index (CSI)

The CSI is a measurement of crime based on the amount and seriousness of the offences reported to the police. A low CSI rate is indicative of a relatively safe community. Index scores are compared to a baseline of 100, which is calculated using historical data. The CSI is a method to compare crime consistently across jurisdictions.

Goal: lower than previous years

## Efficiency

Actual Actual Strength strength

over authorized

Goal at least over authorized

strength

\*1 The DPD strives to be staffed at least 5 over authorized strength to ensure that the DPD can continue providing policing services to the community and accounts for police officers who may be on long-term leave (maternity, sickness, injury, personal etc.). This over strength is managed within approved budget and efficiencies.
